🎓 EDUCATION

B. Tech, Baderia Global Institute of Management and Engineering

2021 - 2025 | Course - Computer Science| Yr-2, Sem-3 | CGPA - 8.0(till date)

🧠 SKILLS

Programming

Language

C, Java, Python

Android Development

Java, Flutter(dart)

Machine Learning &

NLP

Python

Web Frontend

HTML, CSS, Bootstrap,

JavaScript

📁 PROJECTS

Machine Learning models :

1. Cancer Detection Model

- Python Libraries used :- numpy, pandas, scikit-learn

2. Movie & Music Recommendation Model - Web App

- Python Libraries used :- numpy, pandas, scikit-learn, ast, PorterStemmer, CountVectorizer, cosine_similarity, etc

3. Vehicle detection Model

- Python Library used :- cv2 functions - CascadeClassifier, VedioCapture, cvtColor, etc
- being used for - smart parking project - under development .

Android Applications:

1. Simple Calculator

- Technologies used : Android studio - java

2. Matrix Calculator

- Technologies used : Android studio - java

3. Notes Maker - DIARYdigest

- Technologies used : Android studio - Flutter,dart,rive,Hive

4. College Attendance App

- Technologies used : Android studio - Flutter,dart,rive

Web Applications :

1. Book Recommendation System

- Technologies used : Python, Bootstrap, HTML,CSS,Flask
- Model - Collaborative & Priority

2. Portfolio Website

- url - https://shadowashwin.github.io/portfolio_web_app/
- Technologies used : Bootstrap, HTML, CSS
- still upgrading.....
